

Utility RD&D Showdown

Hosted by Nic Crowder, Ameren Illinois

Logistics

Utilities have 10 - 15 minutes to highlight a recent RD&D project

At the end of the presentations, attendees will vote for the project they think is most impactful or innovative

A winner will be crowned 🏆

The Role of Utility RD&D in Energy Efficiency

Serves as the bridge for new technologies from 'lab-proven'
to 'field ready'

Reducing risk before program rollout

Improving cost-effectiveness

Driving Market Transformation
